Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3617

1. Claims 1-12 are in the application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Buell.

Buell discloses a keychain and one planar information card having at least one side imprinted with information. The card is made from a plastic impervious to water.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2, 4-6, 8, 9, 11 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Buell in view of keychains for boater of the admitted prior art.

The admitted prior art discloses a number of keychains used by boaters. Some of these

keychains, as is well known are made of a buoyant material. In view of these disclosures, it

Art Unit: 3617

would have been obvious to one skilled in the art to make the card of Buell from a buoyant material, if the keychain is intended to be used near water generally as taught by the admitted prior art. The material used to make the card in the keychain of Buell is deemed to have been an obvious matter of design choice dependent on the intended application of the same. To use more than one card in the keychain would be an obvious matter of choice.

6. Claims 3, 7, and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Buell in view of the admitted prior art as applied to claims 1 and 8 above, and further in view of Bishop. Bishop disclose the concept of reinforcing a hole made on a card to receive a chain by the use of a grommet. In view of these disclosures, it would have been obvious to one skilled in the art to provide the hole receiving the keychain in Buell with a grommet for reinforcement generally as taught by Bishop. It would be desirable to provide the card in Buell with a reinforcement to prevent its early failure.
